INTERNLYTIC TECHNOLOGIES

AI Prompt Library

45 reviewed, reusable prompts for internship teams

Week 4 Final Project • Phase 2 – Prompt Engineering

Prepared by Sumaiya Shakeel

About this library

A reusable set of 45 original, reviewed prompts that help a small internship team handle recruitment, onboarding, task guidance, marketing, project planning and quality checking more consistently. It is a knowledge resource, not a coded application: copy a prompt, replace the [PLACEHOLDERS], run it in any AI assistant, then review the result before using it.

Contents

Section	Category	Prompts
REC	Recruitment & Applicant Support	7
OPS	Internship Operations & Onboarding	8
TSK	Task Instructions & Submission Guidance	8
MKT	Marketing & Social Media Content	8
PRJ	Project Planning & Technical Support	7
QA	Quality Assurance, Editing & Fact-Checking	7
	Quick-Start Guide • Improved Prompts (5) • Responsible-Use Rules	

Quick-Start Guide

1. **Choose a prompt.** Find the category that matches your job, then pick the entry whose Purpose fits. Use the ID (e.g. MKT-01) to refer to it in team chat.
2. **Fill in the placeholders.** Replace every [SQUARE BRACKET] with real details from the Inputs line. Never leave a bracket empty; write “NOT PROVIDED” if you do not have the detail.
3. **Paste and run.** Paste the full prompt into your AI assistant. Add source text or notes below the prompt when the entry asks for them.
4. **Test the result.** Check it against the entry’s Review checklist. Verify every date, name, link, number and policy claim against the official source.
5. **Review and edit.** Remove private details, fix the tone, and have a teammate or mentor approve anything that will be sent outside the team.
6. **Improve and record.** If the output missed the mark, change one thing in the prompt, re-test, and note what improved (see Improved Prompts.)

Golden rules: use fictional or anonymised data when testing • never paste passwords, ID numbers or private applicant details • the AI drafts, a human decides.

1. Recruitment & Applicant Support (REC)

REC-01 — Applicant FAQ Response	
Purpose	Draft a courteous reply to an applicant's question using only approved policy details.
Inputs	[APPLICANT QUESTION], [POLICY DETAILS], [SENDER NAME]
Reusable prompt	Act as a clear and courteous internship support assistant. Draft a reply to an applicant who asks: [APPLICANT QUESTION]. Use only the policy details below. If a key detail is missing, write "NEEDS CONFIRMATION" instead of inventing it, and list what must be checked. Keep the reply under 150 words, friendly and professional, and sign it as [SENDER NAME]. Policy details: [POLICY DETAILS]
Output format	Short email reply plus a "Needs confirmation" list.
Review checklist	Every fact appears in the policy text; no invented dates or promises.

REC-02 — Internship Role Description	
Purpose	Create a clear, inclusive role listing.
Inputs	[ROLE TITLE], [KEY DUTIES], [REQUIRED SKILLS], [DURATION], [MODE: remote/onsite]
Reusable prompt	You are an HR content writer. Write an internship role description for [ROLE TITLE]. Include: a two-sentence overview, 5 responsibilities based on [KEY DUTIES], required skills from [REQUIRED SKILLS], what the intern will learn, duration [DURATION] and work mode [MODE]. Use inclusive, jargon-free language. Do not mention salary or benefits unless provided. End with "How to apply: [LINK]".
Output format	Headed listing, 250–300 words.
Review checklist	Duties match the real role; no promises about pay, certificates or jobs.

REC-03 — Application Screening Rubric	
Purpose	Build a fair scoring rubric for shortlisting.
Inputs	[ROLE TITLE], [3–5 CRITERIA], [SCORE SCALE]
Reusable prompt	Create a screening rubric for the internship role [ROLE TITLE]. Use these criteria: [3–5 CRITERIA]. For each criterion give a [SCORE SCALE] scale with a one-line description of every score level, observable evidence to look for, and one bias warning (for example, do not penalise informal CV formatting). Add a final "borderline case" note.
Output format	Table: criterion, score levels, evidence, bias warning.
Review checklist	Criteria relate to the job only; no age, gender, religion or background factors.

REC-04 — Interview Question Set	
Purpose	Prepare structured, role-relevant interview questions.
Inputs	[ROLE TITLE], [SKILL AREAS], [INTERVIEW LENGTH]
Reusable prompt	Act as an interview coordinator. Write a structured interview plan for [ROLE TITLE] lasting [INTERVIEW LENGTH]. Cover [SKILL AREAS] with 8 questions: 2 warm-up, 4 skills or scenario questions, 2 motivation questions. For each, add what a strong answer looks like in one sentence. Avoid personal or discriminatory questions.
Output format	Numbered list with a “strong answer” note under each question.
Review checklist	All questions are job-related and asked of every candidate.

REC-05 — Shortlist Notification Email	
Purpose	Invite shortlisted applicants to the next step.
Inputs	[APPLICANT NAME], [ROLE], [NEXT STEP], [DEADLINE], [CONTACT]
Reusable prompt	Write a warm, professional email telling [APPLICANT NAME] they have been shortlisted for [ROLE]. Explain the next step: [NEXT STEP]. State the response deadline [DEADLINE] and the contact [CONTACT]. Keep it under 120 words with a clear subject line. Do not guarantee selection.
Output format	Subject line and email body.
Review checklist	Verify deadline and contact; confirm no selection promise.

REC-06 — Polite Rejection Email	
Purpose	Decline an applicant respectfully.
Inputs	[APPLICANT NAME], [ROLE], [OPTIONAL ENCOURAGEMENT]
Reusable prompt	Write a kind, respectful email informing [APPLICANT NAME] that they were not selected for [ROLE]. Thank them for their time, avoid detailed reasons or comparisons with other candidates, and include [OPTIONAL ENCOURAGEMENT] if given. Under 100 words, hopeful in tone, no false promises of future roles.
Output format	Subject line and short email.
Review checklist	No private evaluation details; tone is respectful, not cold.

REC-07 — Interview Scheduling Message	
Purpose	Offer interview slots clearly.
Inputs	[APPLICANT NAME], [DATE OPTIONS], [TIME ZONE], [PLATFORM/LINK]
Reusable prompt	Draft a short message to [APPLICANT NAME] offering interview slots: [DATE OPTIONS] in [TIME ZONE] on [PLATFORM/LINK]. Ask them to reply with one choice, say what to prepare (a quiet space, working microphone, CV copy) and invite them to request another time if none suit. Under 110 words.
Output format	Message with slots in a bulleted list.
Review checklist	Dates, days of the week, time zone and link all verified.

2. Internship Operations & Onboarding (OPS)

OPS-01 — Welcome Email	
Purpose	Welcome new interns and set expectations.
Inputs	[INTERN NAME], [PROGRAM], [START DATE], [FIRST STEPS], [SUPPORT CONTACT]
Reusable prompt	Write a welcoming email to [INTERN NAME] joining [PROGRAM] on [START DATE]. Include a one-line excitement opener, the first three steps ([FIRST STEPS]), where to get help ([SUPPORT CONTACT]) and a friendly closing. Under 150 words, professional but warm.
Output format	Subject line and email body.
Review checklist	Start date, links and contact verified.

OPS-02 — First-Week Checklist	
Purpose	Produce an onboarding checklist for week one.
Inputs	[PROGRAM], [TOOLS USED], [INTRO MEETINGS]
Reusable prompt	Create a day-by-day first-week checklist for interns in [PROGRAM]. Include account setup for [TOOLS USED], introductions ([INTRO MEETINGS]), reading the handbook, a first small task and a Friday reflection. Use checkbox format and mark which items need mentor sign-off.
Output format	Five-day checklist with checkboxes.
Review checklist	Tools and meetings exist; no unrealistic workload.

OPS-03 — Weekly Meeting Agenda	
Purpose	Plan a focused team meeting.
Inputs	[MEETING LENGTH], [LAST WEEK'S TOPICS], [THIS WEEK'S PRIORITIES]
Reusable prompt	Draft an agenda for a [MEETING LENGTH] internship team meeting. Include a check-in, review of [LAST WEEK'S TOPICS], discussion of [THIS WEEK'S PRIORITIES], blockers, and action-item review. Assign time boxes that add up exactly to the meeting length and suggest an owner role for each item.
Output format	Timed agenda table.
Review checklist	Times add up; owners are real team roles.

OPS-04 — Meeting Minutes Summariser	
Purpose	Turn raw notes into clear minutes.
Inputs	[MEETING NOTES], [DATE], [ATTENDEES]
Reusable prompt	Summarise the meeting notes below into minutes for [DATE] with attendees [ATTENDEES]. Sections: key decisions, discussion summary (max 5 bullets), action items (task, owner, deadline). Use only what the notes state. If an owner or deadline is missing, write "NOT STATED". Notes: [MEETING NOTES]
Output format	Minutes in three labelled sections.
Review checklist	No invented actions or owners; compare with the original notes.

OPS-05 — Weekly Progress Report	
Purpose	Help interns report progress clearly.
Inputs	[INTERN NAME], [WEEK NUMBER], [WORK DONE], [BLOCKERS], [NEXT WEEK PLAN]
Reusable prompt	Turn the notes below into a concise weekly progress report for [INTERN NAME], Week [WEEK NUMBER]. Sections: Completed, In progress, Blockers, Next week. Keep each section to 3 bullets maximum, use action verbs, and do not add achievements that are not in the notes. Notes: [WORK DONE], [BLOCKERS], [NEXT WEEK PLAN]
Output format	One-page report with four sections.
Review checklist	Matches the intern’s real work.

OPS-06 — Constructive Mentor Feedback	
Purpose	Frame feedback so it is specific and kind.
Inputs	[INTERN NAME], [STRENGTHS], [IMPROVEMENT AREA], [EXAMPLE]
Reusable prompt	Write feedback from a mentor to [INTERN NAME] using this order: one specific strength ([STRENGTHS]), one improvement area ([IMPROVEMENT AREA]) illustrated by [EXAMPLE], one practical next step, and an encouraging close. Be honest and supportive, avoid personal judgments, under 160 words.
Output format	Short feedback message.
Review checklist	Feedback is about work, not personality; example is accurate.

OPS-07 — Missed Deadline Reminder	
Purpose	Follow up kindly on late submissions.
Inputs	[INTERN NAME], [TASK], [ORIGINAL DEADLINE], [NEW DEADLINE]
Reusable prompt	Draft a friendly but clear reminder to [INTERN NAME] that [TASK], due [ORIGINAL DEADLINE], has not been received. Ask if they need support, offer [NEW DEADLINE] if approved, and state the next step if no reply arrives. No blame, under 90 words.
Output format	Short message.
Review checklist	Confirm the submission is truly missing and the new deadline is approved.

OPS-08 — Completion Message	
Purpose	Close the internship positively.
Inputs	[INTERN NAME], [PROGRAM], [END DATE], [NEXT STEPS], [CERTIFICATE POLICY]
Reusable prompt	Write a congratulatory message to [INTERN NAME] on completing [PROGRAM] on [END DATE]. Thank them, mention [NEXT STEPS] and describe certificate details only as stated in [CERTIFICATE POLICY]. If the policy is missing, write “NEEDS CONFIRMATION”. Under 130 words.
Output format	Short congratulatory email.
Review checklist	Certificate and reference claims match official policy.

3. Task Instructions & Submission Guidance (TSK)

TSK-01 — Task Brief Writer	
Purpose	Create a clear task brief for interns.
Inputs	[TASK TITLE], [GOAL], [DELIVERABLE], [DEADLINE], [TOOLS]
Reusable prompt	Write a task brief with these headings: Goal, What you need to do (4–6 numbered steps), Deliverable, Format, Deadline, Tools, and How it will be assessed. Task: [TASK TITLE]. Goal: [GOAL]. Deliverable: [DELIVERABLE]. Deadline: [DEADLINE]. Tools: [TOOLS]. Use simple language a beginner can follow.
Output format	One-page brief with fixed headings.
Review checklist	Steps are doable in the time given; the deadline is correct.

TSK-02 — Submission Instructions	
Purpose	Explain exactly how to submit.
Inputs	[SUBMISSION METHOD], [FILE FORMAT], [NAMING RULE], [LINK], [DEADLINE]
Reusable prompt	Write step-by-step submission instructions for interns. Method: [SUBMISSION METHOD]. File format: [FILE FORMAT]. Naming rule: [NAMING RULE]. Link: [LINK]. Deadline: [DEADLINE]. Add a pre-submission checklist of 5 items and a line on what to do if the link fails. Do not add rules that are not listed.
Output format	Numbered steps plus checklist.
Review checklist	Link opens; naming rule and deadline are correct.

TSK-03 — Step-by-Step Task Breakdown	
Purpose	Split a big task into manageable steps.
Inputs	[TASK], [DAYS AVAILABLE], [SKILL LEVEL]
Reusable prompt	Break the task “[TASK]” into a day-by-day plan across [DAYS AVAILABLE] days for a [SKILL LEVEL] learner. Each day needs a goal, 2–3 actions, an estimated time in minutes and a “done when” statement. Keep the plan realistic and leave one buffer day.
Output format	Day-by-day table.
Review checklist	Time estimates are sensible; the plan fits the real deadline.

TSK-04 — Assessment Rubric	
Purpose	Make marking criteria transparent.
Inputs	[TASK], [CRITERIA], [TOTAL MARKS]
Reusable prompt	Design a marking rubric for [TASK] with the criteria [CRITERIA] totalling [TOTAL MARKS] marks. For each criterion give three performance levels (Excellent, Good, Needs work) with plain-language descriptors and mark ranges. Keep descriptors measurable.
Output format	Rubric table.
Review checklist	Marks add up; descriptors are observable.

TSK-05 — Submission Feedback	
Purpose	Draft feedback on an intern's work.
Inputs	[SUBMISSION TEXT OR SUMMARY], [RUBRIC], [TONE]
Reusable prompt	Review the submission against the rubric and write feedback in a [TONE] tone: two things done well, two improvements with exact suggestions, and one next step. Quote the submission only when needed and do not invent content that is not there. Submission: [SUBMISSION TEXT OR SUMMARY]. Rubric: [RUBRIC]
Output format	Feedback under three headings.
Review checklist	A human reviewer confirms the points before sending; use anonymised work when testing.

TSK-06 — Resubmission Request	
Purpose	Ask an intern to revise and resubmit.
Inputs	[INTERN NAME], [TASK], [ISSUES], [RESUBMIT DEADLINE]
Reusable prompt	Write a supportive message asking [INTERN NAME] to revise [TASK]. List the issues clearly ([ISSUES]), say exactly what must change, give the deadline [RESUBMIT DEADLINE] and offer help. Encouraging, under 120 words.
Output format	Short message with bulleted fixes.
Review checklist	Issues match the reviewer's notes.

TSK-07 — Task FAQ Generator	
Purpose	Pre-empt common intern questions.
Inputs	[TASK BRIEF TEXT]
Reusable prompt	Read the task brief below and write 8 likely questions an intern would ask, with short answers based only on the brief. If the brief does not answer a question, mark it "NEEDS CONFIRMATION". Brief: [TASK BRIEF TEXT]
Output format	Q&A; list.
Review checklist	Every answer traces back to the brief.

TSK-08 — Extension Request Reply	
Purpose	Respond to deadline extension requests consistently.
Inputs	[INTERN NAME], [REASON], [EXTENSION POLICY], [DECISION]
Reusable prompt	Draft a reply to [INTERN NAME], who requested an extension because [REASON]. Follow this policy only: [EXTENSION POLICY]. Decision: [DECISION]. Be empathetic, state the new deadline or the reason for refusal clearly, and avoid commenting on the reason's validity. Under 100 words.
Output format	Short reply.
Review checklist	Decision comes from a human; sensitive reasons are not repeated in public channels.

4. Marketing & Social Media Content (MKT)

MKT-01 — LinkedIn Internship Announcement	
Purpose	Announce an internship opening professionally.
Inputs	[PROGRAM], [ROLE], [DEADLINE], [LINK], [KEY BENEFIT]
Reusable prompt	Act as a social media writer for Internlytic Technologies. Write a LinkedIn post announcing [PROGRAM] for the role [ROLE]. Open with a one-line hook, give 3 short bullet points on what applicants will do or learn, mention [KEY BENEFIT] only if it is factual, and end with “Apply by [DEADLINE]: [LINK]”. Under 150 words, 3 relevant hashtags, no exaggerated claims such as “guaranteed job”.
Output format	Ready-to-post text with hashtags.
Review checklist	Verify deadline and link; remove any claim you cannot prove.

MKT-02 — Instagram Caption Set	
Purpose	Produce caption options for one post.
Inputs	[POST TOPIC], [AUDIENCE], [CALL TO ACTION]
Reusable prompt	Write 3 Instagram captions about [POST TOPIC] for [AUDIENCE]: one informative, one friendly, one short and punchy (under 20 words). Each ends with [CALL TO ACTION] and uses at most 2 emojis. Do not use made-up statistics.
Output format	Three labelled captions.
Review checklist	Facts are accurate; tone matches the brand.

MKT-03 — Intern Spotlight Post	
Purpose	Celebrate an intern’s work with their permission.
Inputs	[INTERN FIRST NAME], [PROJECT], [LEARNING], [APPROVED QUOTE]
Reusable prompt	Write a spotlight post about [INTERN FIRST NAME], who worked on [PROJECT] and learned [LEARNING]. Include the approved quote exactly as provided: “[APPROVED QUOTE]”. Warm and specific, under 120 words. Do not add personal details beyond those given.
Output format	One social post.
Review checklist	Written consent obtained; the quote is unchanged.

MKT-04 — Webinar or Event Promotion	
Purpose	Promote an event across channels.
Inputs	[EVENT NAME], [DATE], [TIME + TIME ZONE], [SPEAKER], [REGISTRATION LINK]
Reusable prompt	Create promotional copy for [EVENT NAME] on [DATE] at [TIME + TIME ZONE] with [SPEAKER]. Provide: a 2-line announcement, a 60-word LinkedIn post and a 25-word reminder for the day before. Include [REGISTRATION LINK] in each. Do not promise outcomes that are not listed.
Output format	Three text blocks.
Review checklist	Date, time zone, speaker and link verified.

MKT-05 — Newsletter Section	
Purpose	Write a monthly update for interns and followers.
Inputs	[HIGHLIGHTS], [UPCOMING], [MONTH]
Reusable prompt	Write a newsletter section for [MONTH] with a friendly headline, a 3-bullet recap of [HIGHLIGHTS], an “Upcoming” line based on [UPCOMING] and a closing sentence inviting replies. Under 180 words, plain language.
Output format	Headline plus short sections.
Review checklist	All items appear in the supplied lists.

MKT-06 — Hashtag & Keyword Set	
Purpose	Suggest relevant hashtags for a post.
Inputs	[POST TEXT], [PLATFORM]
Reusable prompt	Suggest 10 hashtags for [PLATFORM] for the post below: 3 broad, 4 niche and 3 branded or community tags. Avoid banned, misleading or unrelated tags and explain each group in one line. Post: [POST TEXT]
Output format	Grouped hashtag list.
Review checklist	Search each hashtag to confirm it is appropriate.

MKT-07 — Short Video Script	
Purpose	Script a 30-second explainer or reel.
Inputs	[TOPIC], [KEY POINTS], [CALL TO ACTION]
Reusable prompt	Write a 30-second video script about [TOPIC] using [KEY POINTS]. Format as a two-column table: Visual / Voiceover. Include a hook in the first 3 seconds, no more than 70 spoken words and an ending call to action: [CALL TO ACTION].
Output format	Two-column script table.
Review checklist	Spoken length fits 30 seconds; no unlicensed music or footage named.

MKT-08 — Two-Week Content Calendar	
Purpose	Plan a balanced posting schedule.
Inputs	[GOAL], [PLATFORMS], [POSTS PER WEEK], [THEMES]
Reusable prompt	Create a two-week content calendar to achieve [GOAL] on [PLATFORMS] with [POSTS PER WEEK] posts per week around [THEMES]. Table columns: date, platform, format, topic, one-line idea, call to action. Mix education, community and promotion, and mark no more than 2 posts as promotional per week.
Output format	Calendar table.
Review checklist	Dates avoid holidays and clashing events.

5. Project Planning & Technical Support (PRJ)

PRJ-01 — Project Plan Outline	
Purpose	Structure a small project quickly.
Inputs	[PROJECT NAME], [GOAL], [TEAM SIZE], [DURATION]
Reusable prompt	Create a project plan outline for [PROJECT NAME]. Goal: [GOAL]. Team: [TEAM SIZE] people. Duration: [DURATION]. Include scope, deliverables, roles, a high-level timeline, success measures and out-of-scope items. Keep it to one page and flag any assumptions you made.
Output format	One-page outline with an “Assumptions” list.
Review checklist	Assumptions confirmed with the team lead.

PRJ-02 — Milestone Timeline	
Purpose	Turn a deadline into realistic milestones.
Inputs	[START DATE], [END DATE], [DELIVERABLES]
Reusable prompt	Build a milestone timeline from [START DATE] to [END DATE] for [DELIVERABLES]. For each milestone give the date, owner role, output and a dependency. Include a review checkpoint before the final date and a buffer of at least 10% of the total time.
Output format	Table of milestones.
Review checklist	Recalculate dates and weekdays by hand.

PRJ-03 — Risk Register	
Purpose	Identify and plan for project risks.
Inputs	[PROJECT DESCRIPTION], [CONSTRAINTS]
Reusable prompt	For the project below, list 8 realistic risks in a table: risk, likelihood (low/medium/high), impact, early warning sign and mitigation. Consider [CONSTRAINTS]. Avoid generic risks that apply to every project. Project: [PROJECT DESCRIPTION]
Output format	Risk table.
Review checklist	Risks are specific and owned by a person or role.

PRJ-04 — User Story Writer	
Purpose	Write clear requirements in user-story form.
Inputs	[PRODUCT/FEATURE], [USER TYPE], [NEEDS]
Reusable prompt	Write 6 user stories for [PRODUCT/FEATURE] for [USER TYPE] based on [NEEDS]. Use the form “As a [user], I want [action] so that [benefit]” and add two acceptance criteria to each story. Keep every story small enough to finish in one working day.
Output format	Numbered stories with criteria.
Review checklist	Stories reflect real needs, not assumptions.

PRJ-05 — Technical Concept Explainer	
Purpose	Explain a technical idea to a beginner.
Inputs	[CONCEPT], [AUDIENCE LEVEL]
Reusable prompt	Explain [CONCEPT] to [AUDIENCE LEVEL]. Structure: a one-sentence definition, an everyday analogy, a short worked example, 3 common mistakes and a 3-question self-check with answers. Do not use unexplained jargon.
Output format	Structured explanation under 300 words.
Review checklist	Verify technical claims in documentation.

PRJ-06 — Debugging Helper	
Purpose	Get structured help with an error.
Inputs	[LANGUAGE/TOOL], [ERROR MESSAGE], [CODE SNIPPET], [WHAT YOU TRIED]
Reusable prompt	Act as a patient debugging mentor for [LANGUAGE/TOOL]. Read the error and code below, then give: the likely cause in plain language, a step-by-step fix, why it works, and one way to prevent it. Ask for missing information instead of guessing. Error: [ERROR MESSAGE]. Code: [CODE SNIPPET]. Already tried: [WHAT YOU TRIED]
Output format	Cause, fix steps, explanation, prevention tip.
Review checklist	Test the fix in a safe copy; remove keys and private data before pasting code.

PRJ-07 — Data Cleaning Checklist	
Purpose	Plan how to clean a dataset before analysis.
Inputs	[DATASET DESCRIPTION], [COLUMNS], [ANALYSIS GOAL]
Reusable prompt	Create a data-cleaning checklist for a dataset described as [DATASET DESCRIPTION] with columns [COLUMNS], to support [ANALYSIS GOAL]. Cover missing values, duplicates, inconsistent formats, outliers, data types and documentation of changes. Give one example check per item. Use fictional data only.
Output format	Checklist with example checks.
Review checklist	No real personal data was shared with the AI.

6. Quality Assurance, Editing & Fact-Checking (QA)

QA-01 — Proofread & Edit	
Purpose	Fix errors without changing the meaning.
Inputs	[TEXT], [SPELLING STYLE], [WORD LIMIT]
Reusable prompt	Proofread the text below using [SPELLING STYLE] spelling. Correct grammar, punctuation and clarity without changing the meaning or adding facts. Return (1) the corrected text and (2) a list of the main changes. Keep within [WORD LIMIT] words. Text: [TEXT]
Output format	Clean text plus change list.
Review checklist	Compare names, numbers and dates with the original.

QA-02 — Tone Adjuster	
Purpose	Rewrite a message in a different tone.
Inputs	[TEXT], [TARGET TONE], [AUDIENCE]
Reusable prompt	Rewrite the message below in a [TARGET TONE] tone for [AUDIENCE]. Keep all facts, dates and requests unchanged. Give two versions: one slightly shorter and one with a stronger call to action. Message: [TEXT]
Output format	Two rewritten versions.
Review checklist	Facts unchanged; tone suits the relationship.

QA-03 — Fact-Check List	
Purpose	Extract claims that must be verified.
Inputs	[TEXT]
Reusable prompt	Read the text below and list every checkable claim (names, dates, numbers, links, policies, quotations). Table: claim, type, how to verify, risk if wrong (low/medium/high). Do not say a claim is true or false; only mark what needs human verification. Text: [TEXT]
Output format	Verification table.
Review checklist	Verify each item in an official source before publishing.

QA-04 — Consistency Checker	
Purpose	Find mismatches across a set of documents.
Inputs	[DOCUMENT A], [DOCUMENT B]
Reusable prompt	Compare the two documents below and list inconsistencies in dates, names, numbers, terminology and tone. For each, quote both versions briefly and suggest which source to confirm. Do not choose a winner without evidence. A: [DOCUMENT A]. B: [DOCUMENT B]
Output format	Table of inconsistencies.
Review checklist	Confirm each flagged item manually.

QA-05 — Plain-Language Rewrite	
Purpose	Make instructions easier to understand.
Inputs	[TEXT], [READING LEVEL]
Reusable prompt	Rewrite the text below at a [READING LEVEL] reading level. Use short sentences, active voice and everyday words. Keep legal or policy terms where needed and explain them in brackets. Do not remove any requirement. Text: [TEXT]
Output format	Simplified text.
Review checklist	Every original requirement is still present.

QA-06 — Privacy Scan	
Purpose	Spot private data before sharing a document.
Inputs	[TEXT]
Reusable prompt	Scan the text below for private or sensitive information such as full names, emails, phone numbers, addresses, ID numbers, health or financial details and passwords. List each item with its location and suggest a safe replacement such as [NAME REMOVED]. Do not repeat the sensitive values in your answer. Text: [TEXT]
Output format	Findings list with replacements.
Review checklist	Run on sample or masked text where possible; a human does the final check.

QA-07 — Prompt Tester & Critic	
Purpose	Review a prompt before adding it to the library.
Inputs	[PROMPT TO TEST], [EXPECTED OUTPUT]
Reusable prompt	Act as a prompt reviewer. Evaluate the prompt below against: clarity, context, constraints, placeholders, output format and risk of invented information. Score each from 1 to 5, explain each score in one sentence and suggest one improved version. Expected output: [EXPECTED OUTPUT]. Prompt: [PROMPT TO TEST]
Output format	Scorecard plus improved prompt.
Review checklist	Test the improved version with fictional data before approving.

7. Improved Prompts — Before / After Notes

Five prompts refined after Week 3 testing. Each shows the first version, the problem observed, the improved version and what changed.

IMP-01 — Applicant FAQ Response (REC-01)	
Before	“Write a reply to an applicant asking about the internship.”
Problem	The AI invented start dates, stipend details and certificate promises.
After	Added role, policy-only rule, “NEEDS CONFIRMATION” for missing details, word limit and signature.
Improvement	Fewer invented facts; replies are shorter and flag exactly what a human must confirm.

IMP-02 — Meeting Minutes Summariser (OPS-04)	
Before	“Summarise these meeting notes.”
Problem	Output was one long paragraph and the AI assigned owners who were never named.
After	Fixed sections (decisions, discussion, action items), “NOT STATED” rule for missing owners or deadlines, bullet limit.
Improvement	Action items are easy to scan and no longer contain invented assignments.

IMP-03 — LinkedIn Internship Announcement (MKT-01)	
Before	“Write an exciting LinkedIn post about our internship.”
Problem	Generic hype, overpromising language and no clear call to action.
After	Added role, hook-bullets-CTA structure, 150-word limit, hashtag count and a ban on guaranteed-outcome claims.
Improvement	Posts are specific, honest and ready to publish after a quick fact check.

IMP-04 — Task Brief Writer (TSK-01)	
Before	“Explain this task to interns.”
Problem	Inconsistent structure; deliverable and assessment criteria were often missing.
After	Fixed headings (Goal, Steps, Deliverable, Format, Deadline, Tools, Assessment) and a beginner-language instruction.
Improvement	Every brief now has the same layout and answers the questions interns ask most.

IMP-05 — Fact-Check List (QA-03)	
Before	“Fact-check this text.”
Problem	The AI confidently declared claims true or false without sources.
After	Asked only for a list of checkable claims with a verification method and risk level, and banned true/false verdicts.
Improvement	The tool supports human verification instead of replacing it.

8. Responsible-Use Rules

- **Verify before you publish:** dates, names, links, prices, policies and quotations must be checked against an official source.
- **Fictional or anonymised data only** when testing; never paste IDs, passwords, health or financial details.
- **No invented facts:** when information is missing, prompts ask the AI to write “NEEDS CONFIRMATION” or “NOT STATED”.
- **Human approval:** anything sent to applicants, interns or the public is reviewed by a team member first.
- **Consent and fairness:** get permission before naming or quoting interns; screening prompts use job-related criteria only.
- **No false promises:** do not state jobs, certificates, stipends or outcomes unless officially confirmed.
- **Keep improving:** record each change in the Version/Test note and re-test before replacing a prompt.
